

DUTTON ESTATE

WINERY

est. 1995

OUR COMMITMENT TO SUSTAINABILITY

At Dutton Ranch, nestled in the heart of the Russian River Valley, our family's dedication to exceptional viticulture spans generations. We take immense pride in hand-selecting the finest estate fruit from our historic estate vineyards. Sustainability isn't just a buzzword for us—it's a deeply ingrained principle that guides our farming, winemaking practices, and daily lives.

Living among the vineyards, our family is intimately connected to the land we cultivate. This personal bond drives our commitment to maintaining a healthy and thriving wine-growing environment. We are honored to be at the forefront of sustainable agriculture in Sonoma County, leading initiatives that extend beyond our vineyards.

Our sustainable practices are multifaceted, benefiting not only our wines but also our community and the environment. These measures include:

- **Water Conservation:** implementing efficient water systems and techniques to preserve this precious resource.
- **Energy Efficiency:** We utilize renewable energy sources and optimize energy use to reduce our carbon footprint.
- **Responsible Pest Management:** We employ eco-friendly methods to protect our vines and the surrounding ecosystem.
- **Employee and Community Engagement:** we believe that sustainability encompasses caring for our employees and their families. By providing them with secure homes and access to educational opportunities, we foster a nurturing and supportive community. Our team members are the heart and soul of our operations, and their well-being is integral to our success. We ensure that they have the resources they need to thrive both at work and in their personal lives.

By prioritizing these sustainable practices, we strive to be good stewards of the land and responsible citizens within our community. Our efforts reflect our gratitude for the natural beauty of the Russian River Valley and our resolve to preserve it for future generations.

Join us in celebrating a legacy of sustainability knowing that every bottle of our wine is crafted with care, respect, and a vision for a sustainable future.

SUSTAINABILITY IN ACTION

- Sonoma County Sustainably Farmed Grapes - Logo since 2017
- 1200 acres of premium vineyards Certified Sonoma County Sustainable Grape Growing Program
- 300 acres of California Certified Organic Apples
- 100% Fish-Friendly Farming - All vineyards certified since 2014
- California Sustainable Winegrowing Alliance - Active since 2016

We built and posted more than 100 owl boxes suited to specific owl species to help with natural pest management (plus it's fun to watch their families grow!)

The Sonoma County Sustainably Grown Grapes logo on our wine bottles beginning in 2017 ensures we are actively participating in certified programs.

Expanding job opportunities and housing for the Dutton Ranch farm workers.

As part of our Fish Friendly Farming, reduced erosion & soil loss plus improved water quality supports the biodiversity of the ecosystem.

“We are the sixth generation of the Duttons to farm in Sonoma County. When we founded Dutton Estate Winery in 1995, we continued a multi-generational family legacy and commitment to our distinctive corner of the Russian River Valley through making wine.”—Tracy Dutton, Founder/Owner
